

# Win back your independence with eSight.

Imagine being able to read a book, explore a new city, or cook a meal with complete confidence.

eSight's breakthrough technology has enabled individuals living with Retinal Detachment to finish school, return to work, and enjoy quality time with friends and family.

Speak with an eSight Advisor to experience the world with greater mobility and independence.

The only clinically-validated device of its kind for people with Retinal Detachment

*“This device has had a revolutionary impact on the lives of my patients; it enables unprecedented visual clarity, along with true mobility and independence.”*

*Dr. Robert Devenyi, Ophthalmologist-in-Chief, The University Health Network*

# Discover the technology that's changing the lives of people with Retinal Detachment.

Countless individuals living with Retinal Detachment have experienced life changing results with eSight.

## See what's possible with eSight:
