

MagniLink TAB 2.0

A complete solution

This tablet solution based on a Microsoft Surface Pro with a 12.3" screen provides the user a complete mobile solution which is perfect for students as well as business professionals. The TAB provides the ability to read any printed materials with ease by changing to the high contrast color of your choice. Graphs, diagrams and pictures come into clear focus by using the full color mode. Use the TAB as a video magnifier, and for reading longer documents, use the built-in fast text-to-speech (TTS). Utilize the TAB as your everyday Windows 10 computer which provides endless possibilities!

Use the internal camera for reading or the full HD external camera for distance, document and close-up viewing. This provides optimized possibilities for reading, writing and object viewing.

Connect and communicate

MagniLink TAB is easily connected to your network with Wi-Fi, and you can use various Bluetooth accessories for ease-of-use. Internet and other standard applications are only a click away – with TAB, you can easily communicate with the rest of the world!

Flexibility

MagniLink TAB has a touch screen with large print buttons. You can also control the unit by gestures or connect a Bluetooth keyboard and control everything by hotkeys. The functionality is adaptable to the individual user by customizing colors and features.

Listen to your text

The high-performance software is included with built-in TTS which allows you to read at

the touch of a button. Several viewing modes are available for increased reading speed and efficiency.

Truly mobile

MagniLink TAB is foldable and lightweight and provides an easy and quick startup which allows you to start working immediately. This makes the unit ideal for use in the classroom, workplace, home and on the go!

Highlights of MagniLink TAB 2.0

- Fill in worksheets and forms using the surface pen.
- Adjust the color and thickness of the highlighter & pen.
- Simply pinch & zoom on menus for the perfect size.
- Change the color of the on-screen buttons.
- TAB works seamlessly with Windows 10 Narrator.
- Open captured images directly within the TAB software.
- Customize the colors of the screen to fit each person.
- Ability to use the distance camera for video recording and the TAB camera for reading a document at the same time.
- New editing features built within the TAB software – save, open, type, handwrite and highlight text all from within our new easy-to-use editing tool!
- Camera & Image Rotation:
Enables you to use the product effectively whether you are left- or right-handed.

Allows you to use the TAB with the external camera in front of the device instead of on the side. This makes the product have a very small footprint for use on a little desk or within close quarters.

Pair with our new Bluetooth Large Print keyboards!
