

MagniLink ChromeViewer 4.0

A new version of MagniLink ChromeViewer is now available!

Features in version 4.0

- New Graphical User Interface, similar to the MagniLink PCViewer interface.
- A notepad feature where you can draw, write, and type in the image.
 - Save the image including your notations.
- A new and advanced OCR/TTS function with several different reading modes.
 - The OCR/TTS function in MagniLink ChromeViewer 4.0 is an accessory; it is a paid option (not complimentary).
- All camera features can be controlled from the keyboard or via software in the latest version of the Chrome OS.

Status of MagniLink ChromeViewer version 3.0

- MagniLink ChromeViewer 3.0 is still an available option.
- In version 3.0, a simple OCR/TTS is included free of charge.
- In version 3.0, certain camera functions are not controllable from the computer keyboard/software (when running Chrome OS version 85 and later).

Product compatibility for MagniLink ChromeViewer version 4.0

- MagniLink S units manufactured from November 1, 2021.
- MagniLink Zip units manufactured from January 1, 2022.
 - Please note that your MagniLink Zip also needs to be equipped with the connection board to be compatible with computer connection.
- **Manufacture date is on each product near serial number.**
- Units manufactured prior to the above dates can be used with version ChromeViewer 4.0 after purchasing an upgrade package and sending your video magnifier to the LVI America Service Center for a factory firmware upgrade.

Upgrade offers and alternatives for existing MagniLink ChromeViewer 3.0 users

The following applies to products manufactured prior to the above dates.

- Stay with your present version of MagniLink ChromeViewer and continue using it.
 - No action is needed.
- Upgrade to MagniLink ChromeViewer version 4.0.
 - Send in your Video Magnifier to LVI for a firmware upgrade which will allow your device to work with MagniLink ChromeViewer version 4.0.
 - An RMA is needed prior to sending your video magnifier in for the firmware upgrade. Contact your reseller and provide them your serial number, and they will provide you with an RMA. You can also e-mail our service center directly to receive your RMA. E-mail Lew Erlich at service@lviamerica.com
 - Units purchased during 2021, upgrade price \$130.
 - Units purchased before 2021, upgrade price \$260.
 - To add OCR/TTS in version 4.0, there is an additional charge of \$300. (Please note that there is no complimentary OCR/TTS in ChromeViewer version 4.0.)
- If you have any questions, please contact us at 888-781-7811.
