MagniWifi / MagniLink WifiCam
– two different solutions for iPad

Solution 1:
MagniWifi + MagniLink S

STABILITY goal
fusion pump to
vironments like

LVI offers two different solutions suitable for iPad; MagniWifi and MagniLink WifiCam. MagniWifi is a box that connects an iPad to a MagniLink video magnifier, such as **MagniLink S Premium 2**, while MagniLink WifiCam is an all-in-one-solution that conveniently is connected directly to an iPad. Both solutions offer high quality and mobility standards, combined with superior image quality, modern technology and smart features.

Solution 2:
MagniLink WifiCam

Innovative software and easy installation

The MagniLink Viewer App puts you in full control of all the functions, such as magnification, artificial colors, split camera modes, reference lines, OCR, Save Images, Video recording and more. Download the MagniLink Viewer for iOS and wirelessly connect your iPad – and you're good to go.

MagniWifi

Simply plug in the MagniLink video magnifier of your choice to the MagniWifi box with a single cable and connect wirelessly to an iPad.

MagniLink WifiCam

A Reading/Distance Cam as well as a built-in stand for iPad is included – just connect wirelessly to your iPad and get started.
