

## CloverBook Pro XL

### 16" Foldable, Portable Video Magnifier

Meet the NEW CloverBook Pro XL from SightCare - a new, larger-screen version of the popular CloverBook Pro! Boasting a 16-inch touchscreen display, the CloverBook Pro XL not only gives more screen space, but also offers a wider scanning area so you can scan up to an 11"x17" page.

#### Unique Tilt Screen Display

Read and write in comfort with the CloverBook Pro XL! You can adjust the Cloverbook Pro XL into a wide variety of reading positions and also tilt the screen independently to mimic a full desktop size magnifier.

#### Multiple Viewing Modes

Fold out the distance camera to view the front of the classroom, press the camera change button and you are in distance viewing mode. No separate connections or charging is necessary. The distance camera can also bend and twist to view all around the room. Spin the camera toward you and it will automatically switch to mirror mode.

#### About the CloverBook Pro XL

**Price: \$3,695.00**

- 16-inch FHD matte touchscreen
- 4K camera resolution for reading (1x-56x)
- Discreet, fold-out camera for distance/self-viewing (1x-18x)

- Use tactile controls or touchscreen
- Split-screen viewing - simultaneous view of both cameras!
- Live panning - explore live, zoomed images without moving media
- Connects to a TV for larger viewing
- Continuous use up to 4.5 hours - user rechargeable/replaceable battery
- Fold-out, integrated stand provides a proper angle for reading and writing

## CloverBook Pro XL

### True Split-Screen Viewing

The CloverBook Pro XL also has split-screen viewing so students can view the front of the classroom while also looking at materials on their desk.

### Foldable and Portable

When you're finished using the CloverBook Pro XL you can fold it down in seconds!

### Add CloverView XL - price: \$495

Add an additional 16-inch screen to double your viewing area!

- View true split-screen by dedicating one monitor for the front of the room and the second to view the desk.
- Extend the view to both screens simultaneously to see more at once.
- Use the "expand view" feature to keep your place on one screen and magnify on the other.
