

Acuity Speech

Desktop Video Magnifier

Read & Listen in Comfort

The Acuity Speech HD boasts a 22-inch Full-High-Definition (1080p60) image along with a glare-free screen and reflection-free LED lighting for incredible image clarity. When eyes grow tired, turn on the speech and let Acuity Speech HD read your document aloud, simply touching the screen where you want to read.

Acuity Speech HD makes it easy. It arrives in one box, so you just have to plug it in to start using it. And Acuity Speech HD includes control options to suit your preferences, coming standard with a detachable Bluetooth remote (with tactile buttons/wheel), touchpad controls and a touchscreen, so you use the controls that suit you best.
