

NuCaption

Delivering Real-time Subtitles

Making Everyday Conversations Accessible™

Using **industry leading** speech to text engine **NuCaption** captures the conversation in **real-time** for you to read. Whether you are hard of hearing or completely deaf **NuCaption** can help you see what people are saying. Paired with the **NuEyes PRO 3e smart glasses** NuCaption visually delivers what others are saying **live in your field of view**.

No matter if you are at the dinner table, doctors office, or at the store, **NuCaption** helps your **see what is being said** without the need for additional assistive devices, sign language, or an interpreter. **Let NuCaption help you connect.**
