

Bringing Hope to Those with Vision and Hearing Loss

Who We Are

At **New England Low Vision and Blindness**, we are dedicated to empowering individuals with vision and hearing impairments, including macular degeneration, glaucoma, diabetic retinopathy, and hearing loss. Through **technology, training, and care**, we provide innovative solutions tailored to individual needs.

What We Do

We offer **life-changing resources** to individuals with low vision, blindness, and hearing loss, including:

- **Assistive Technology Solutions**
Electronic video magnifiers, wearable low vision devices, screen readers, and smart home integration.
- **NuCaption Real-Time Captioning**
Experience real-time speech-to-text technology with NuCaption, empowering the deaf and deaf-blind communities to stay connected and engaged anywhere, anytime.
- **Low Vision and Hearing Assessments**
Work with specialists to find the right tools for your daily needs.
- **Training & Support**
Learn how to use magnifiers, voice-controlled technology, adaptive devices, and real-time captioning effectively.
- **In-Home Demonstrations**
If you can't come to us, we bring our Vision and Hearing Store to you!
- **Comprehensive Sensory Loss Solutions**
We work with veterans, seniors, educators, and state services to provide holistic care for vision and hearing impairments.

Why Choose Us?

Understanding Your Vision Needs

We'll discuss the challenges you're facing and how electronic magnification may help where optical tools fall short.

Types of Electronic Magnifiers

See the range of devices available—from portable options to desktop models—with features like zoom, contrast, and text-to-speech.

Matching Tech to Your Vision Level

Whether your vision loss is mild, moderate, or severe, we'll show you solutions tailored to your specific needs.

Hands-On Demonstration & Guidance

You'll get to see the devices in action and receive expert guidance on how to choose and use them effectively.
