

TECHNOLOGY FRUSTRATIONS?

Get the Support You Need!

Common Challenges

- Annoying pop-up ads & fear of online scams
- Trouble with family video calling & sharing photos
- Small font making text hard to read
- Struggling with technology for everyday tasks
- Navigating Amazon returns and managing online appointments
- Difficulty updating software and using the TV remote

We Offer Hope!

Personalized, 1-on-1 Technology Training for People of All Abilities

1-on-1 Training

Delivered on-site, remotely, or hybrid — tailored to each person's needs and pace.

Compassionate, patient instruction that builds confidence and independence.

Any Technology — Any Skill Level

Support for all mainstream and adaptive technologies: iPhone, iPad, Android, PC, Mac, Alexa, smart TVs, remotes, streaming devices, and more.

Assistance with accessibility tools for individuals with vision loss, low vision, or other functional challenges.

Specialized Expertise

Inclusive training for individuals of all ages and ability levels — from beginners to advanced users.

Adapted teaching methods for those with cognitive, motor, or sensory differences.
